

## IN THE CLAIM

Please cancel Claims 1 to 2, without prejudice or disclaimer of the subject matter thereof, and amend claim 3. The amendment of claim 3 is based on the suggestion in the office action so as to make the present invention different from the two citations. Thereby it is assured that no new matter is added.

## LIST OF CLAIMS

Claims 1 – 2 (Cancelled)

Claim 3. (Currently amended) A golf club comprising:

a hand grip;

a club head, and

a club body between the hand grip and the club head; and a cross section area of the club body including

a front portion having a first inclined and a second inclined surfaces that define a front cusp in a front connection end of said first and said second inclined surfaces;

a rear portion having a third inclined surface and a fourth inclined surface that define a rear cusp at a rear connecting end of the third and fourth inclined surfaces; and

a middle section between the front portion and the rear portion; the middle section having two sides; one side being connected between the first inclined surface and the third inclined surface; and the other side being connected between the second inclined surface and the fourth inclined surface; each of the two sides being concave into the club body; and each of the two sides of the middle section having only one concave surface;

wherein in a direction from the handgrip to the club head, the club body has at least one reduced segment having a smaller size than other

portion thereof, and a shoulder enclosing a respective end of the reduced segment is formed between each reduced segment and an adjacent portion of the golf club; the reduce segment is wholly reduced from the adjacent portion.
